

Freshness all day long

Plug & Refresh is a plug-in air freshener with a difference. We get used to smells quickly, which means we eventually stop noticing an odour that surrounds us. Plug & Refresh solves this problem by alternating between two complementary scents every 45 minutes.

Like Mist & Refresh, Plug & Refresh also contains active odour elimination technology, so your home can enjoy continuously renewed freshness day after day, week after week. Perfect for the lounge, bedroom or hallway, Plug & Refresh is available in Blossom & Breeze/Soft Jasmine, Cotton Fresh/Cleansing Rain, limited edition Apple Spice/Holly Berries, and Morning Dew/Spring Awakening (refill only).
